

THE GENESIS OF CYBERCHAT

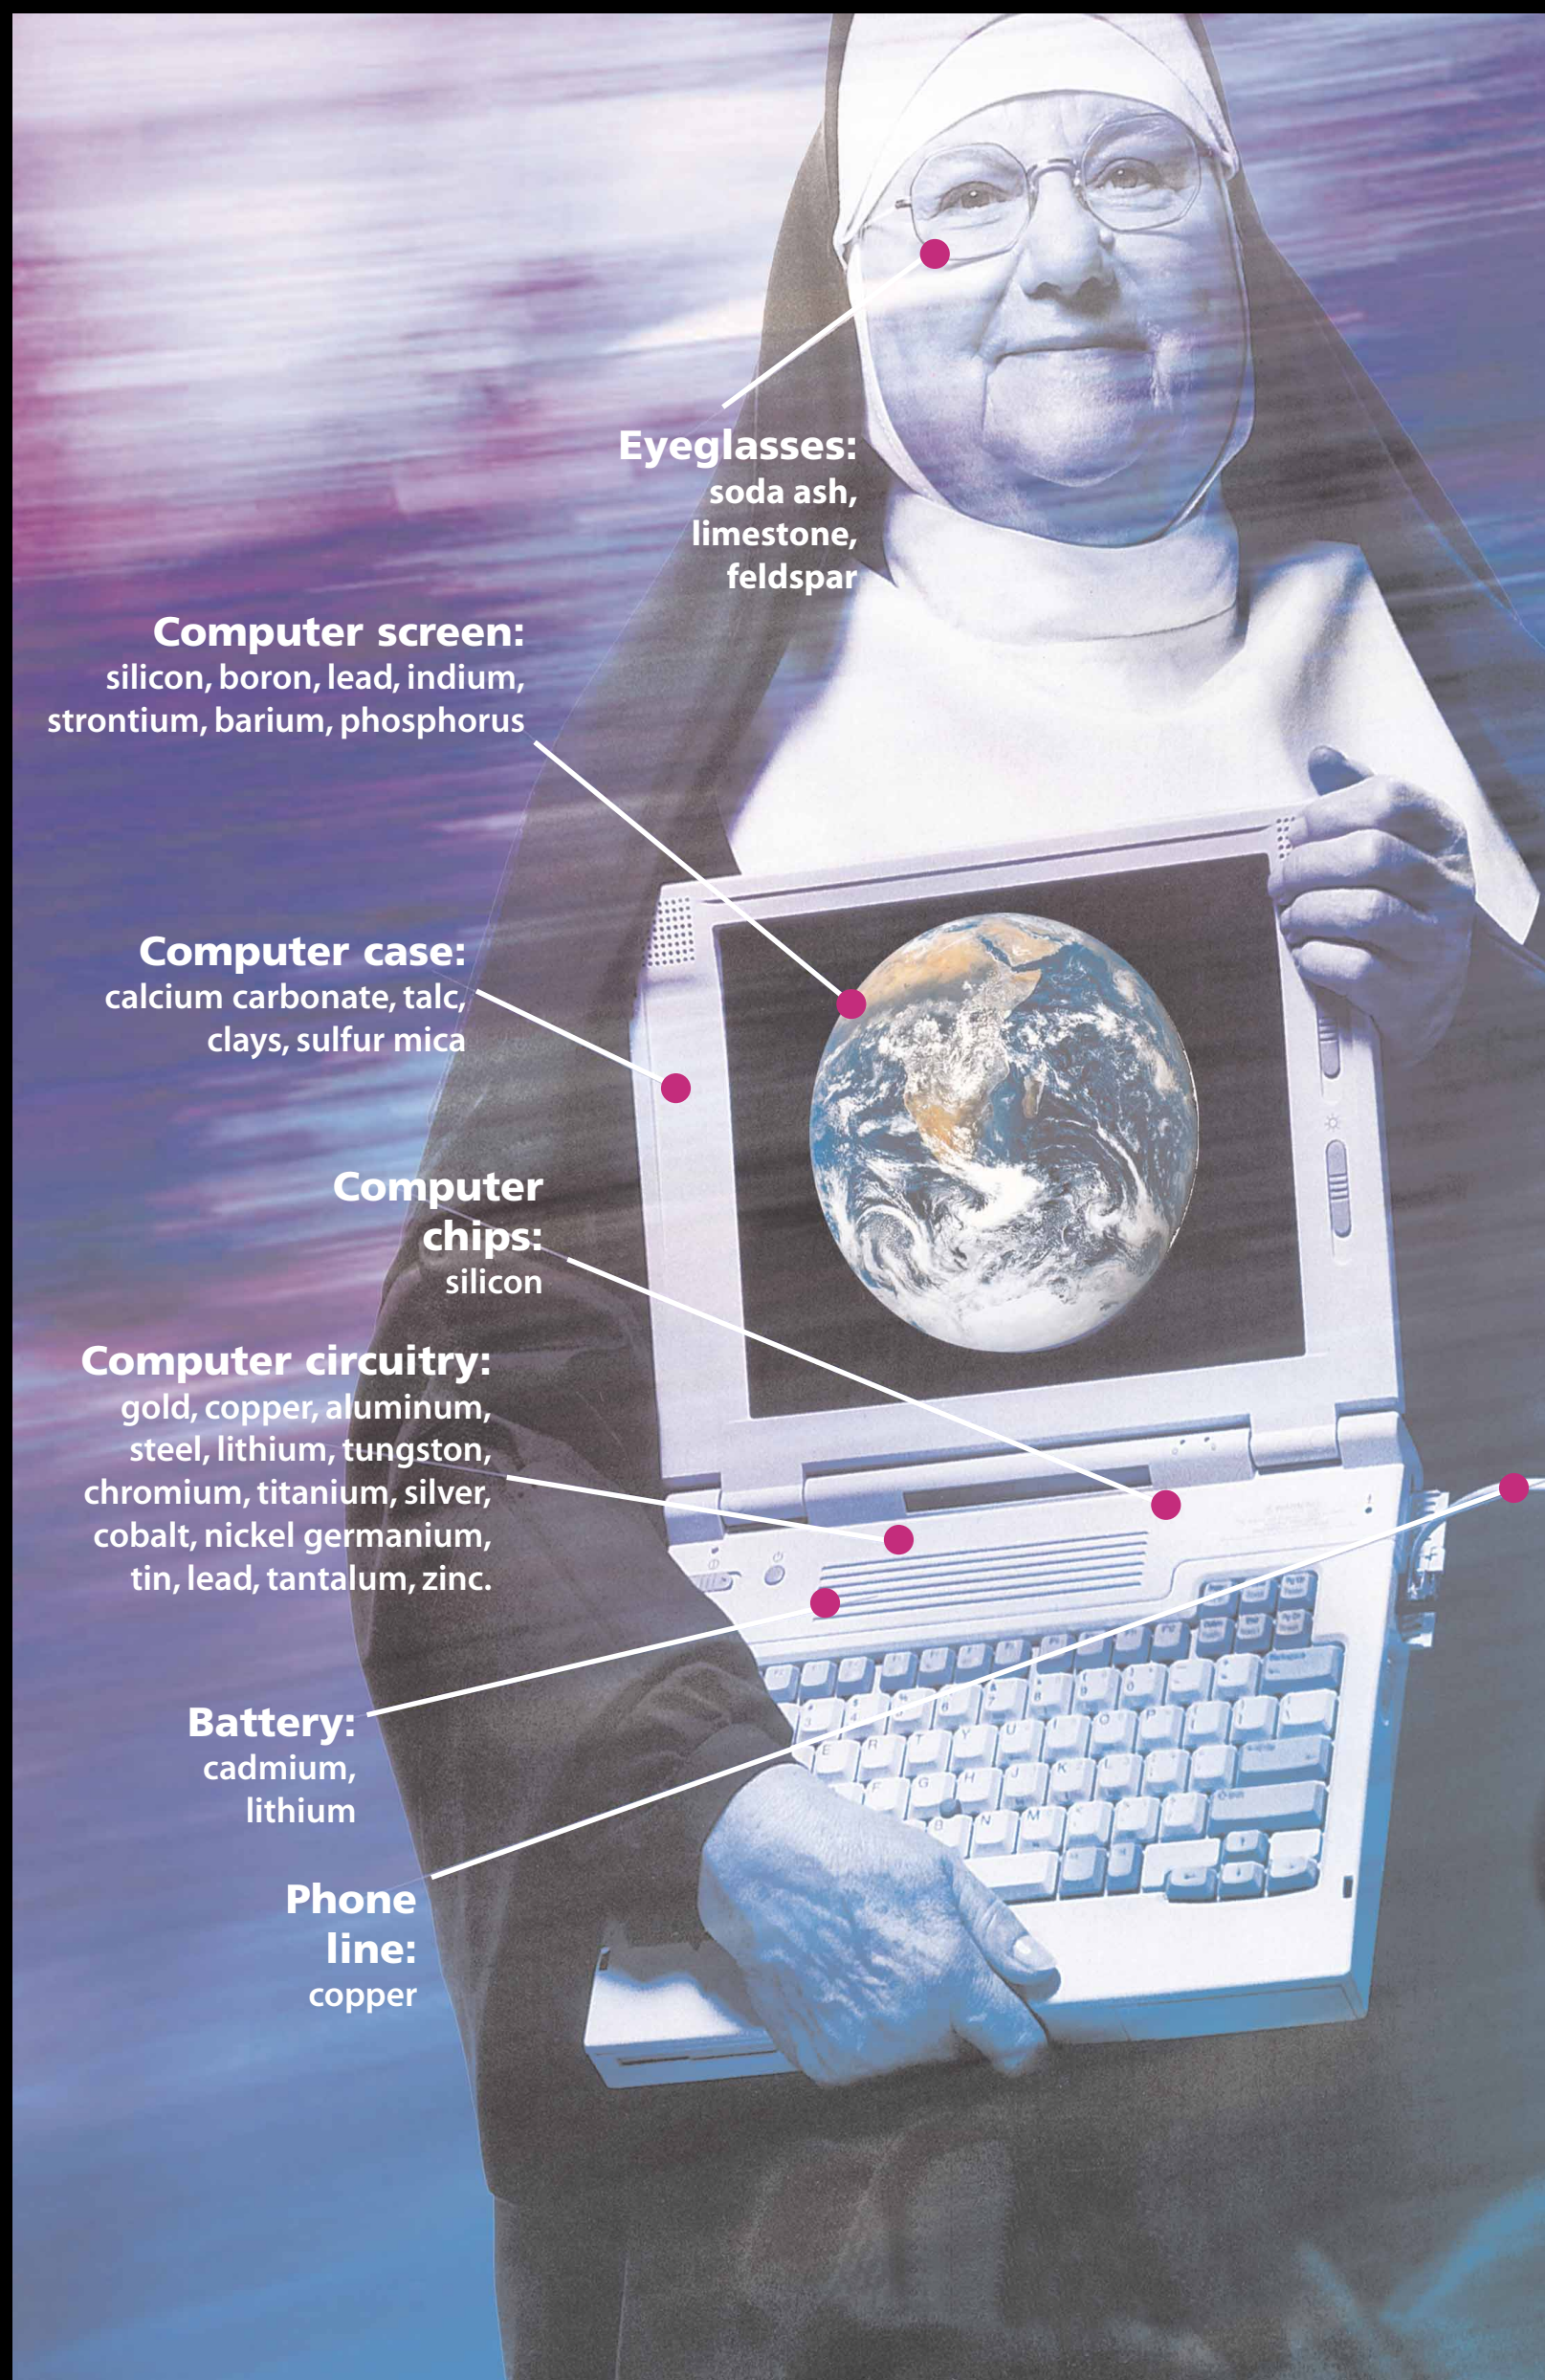

Did you know that without mining your computer, telephone, and television wouldn't work? Look beneath the surface. You'll find that mining has something to do with everything.

ALUMINUM
BARIUM
BORON
CADMIUM
CALCIUM
CHROMIUM
CLAY
COBALT
COPPER
FELDSPAR
GERMANIUM
GOLD
INDIUM
LEAD
LIMESTONE
LITHIUM
MICA
NICKEL
PHOSPHOROUS
SILICON
SILVER
SODA ASH
STEEL
STRONTIUM
SULPHUR
TALC
TANTALUM
TIN
TITANIUM
TUNGSTEN
ZINC

Eyeglasses:
soda ash,
limestone,
feldspar

Computer screen:
silicon, boron, lead, indium,
strontium, barium, phosphorus

Computer case:
calcium carbonate, talc,
clays, sulfur mica

**Computer
chips:**
silicon

Computer circuitry:
gold, copper, aluminum,
steel, lithium, tungsten,
chromium, titanium, silver,
cobalt, nickel, germanium,
tin, lead, tantalum, zinc.

Battery:
cadmium,
lithium

**Phone
line:**
copper
